FY24 Tailwinds & Headwinds

Positive:

- Diagnostic procedures are increasing organically in all countries
- Hospital selection of appropriate surface disinfectants is better informed
- Unprecedented concern around single-use pre-wetted wipes
- Some insulation from inflation and energy cost pressures
- Pricing power – aligned to global inflation rate

Negative:

- Under-resourced regulators
- Hospital staff shortages / further COVID waves / UK industrial action

Product Development

3T platform:

App-based Train, Trace and Test tool to record all steps of the decontamination process.

AI:

Capabilities incorporated into the app for objective verification that the key steps are performed correctly.

Colour change technology:

Visual indicators to ensure key steps in the decontamination process are performed correctly.

62 patent applications, 6 applications went to grant. £0.9m invested in product development and £0.3m in securing and maintaining intellectual property protection.
